I think all content questions go to OWC.

Thanks

Lin, Jessica Orquina has already gone through the climate change site to identify the changes. I think that would be your first step.

We're able to see the change between revisions. And we can see the dates pages were republished.

Subject: FW: FOIA system access

Hi John,

Well, we knew we were bound to start getting FIOA requests about the website...

How do you propose that we respond to this request for:

“copies of records ...related to content that appeared on EPA's websites on January 19, 2017 but no longer appear, or were modified, as of January 20, 2017... including web pages linking to climate and air quality information on White House or other federal agency websites”?

I know we don't have “records” (according to the strict government definition) that relate to this request, but can we use the Web CMS to provide a meaningful response?

I know that we have no way to search for the email and text communications being requested. Please reach out to Lorena to see who would be responsible for collecting that information.

Thanks,

Lin

Lin:

If your managers request/required that you have access to FOIA online system to complete this request, please note that you will need to complete this form: <http://intranet.epa.gov/foia/docs/NEW-FOIAonline-USER-INFORMATION-SHEET.pdf> and forward to Linda E. Green. The form will be used to grant you access to the FOIAOnline system. (You can choose to be “professional” or “SME” depending on your level of involvement assigned by your office)

If your managers prefer you “up-load” information via Dena that will also work. Also, note that if this FOIA requires collaboration from several offices, tasks can be assigned to Offices and/or individuals via the system. Feel free to call me at 202-566-0978 for assistance.

EPA-HQ-2017-003062:	OIM	2/22/2017	1/25/2017	NO		Assigned to OIM on 1/26/2017.

This is a request under the Freedom of Information Act for copies of records maintained by the U.S. Environmental Protection Agency ("EPA") related to content that appeared on EPA's websites on January 19, 2017 but no longer appear, or were modified, as of January 20, 2017. This request includes web pages and any records accessible through EPA's websites via hyperlink or other means, including web pages linking to climate and air quality information on White House or other federal agency websites. In addition, I am requesting copies of communications related to plans to delete or modify the content of EPA's websites related to the following issues: climate; air quality information including air pollution and emissions data; and, policies, actions, statements, and information that pertain to monitoring or addressing climate change and air quality. Please limit the search to copies of records received after November 8, 2016 that relate to website changes to be made after January 19, 2017. Please search for communications to and from Myron Ebell, Chris Horner, Don Benton, Holly Greaves, Roger Martella, George Sugiyama, David Schnare, Joseph Desilets, Charles Munoz, Patrick Davis, David Kreutzer, Doug Ericksen, Justin Schwab, Layne Bangerter, and Brian Dansel before searching accounts belonging to custodians attached to this request. This includes internal and third-party correspondence such as emails, text messages, and correspondence transmitted through any other electronic platform such as Slack or Skype for Business.

Thank you!
